

Gaurav Kuwar

Activity e – PostgreSQL

SQL code:

```
CREATE TABLE customers (  
    id SERIAL PRIMARY KEY,  
    firstName VARCHAR(120),  
    lastName VARCHAR(120),  
    email VARCHAR(120) UNIQUE,  
    total NUMERIC  
);
```

Table Screenshot:

id	firstname	lastname	email	total
[PK] integer	character varying (120)	character varying (120)	character varying (120)	numeric
